

# N106

## ASK Transmitter RF Module

### INTRODUCTION

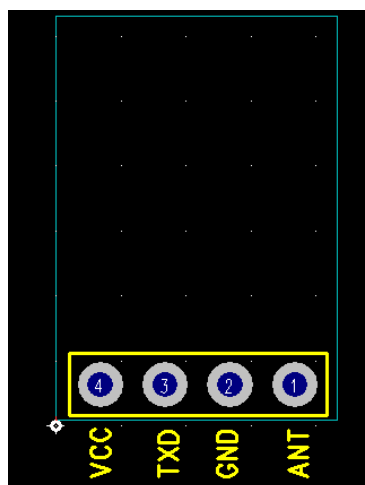

N106 is a low-cost and small size module for transmitting and receiving digital data via radio frequency.

### Wireless Interface

RF pin  
Frequency: 433.92Mhz  
Modulation: ASK

RF data rate: from 1 to 10 kbps  
RF output power: up to 10dBm

### Pin configuration & Dimensions

Pin Define

PCB Layout (mm)

## **Part numbers**

N106-A-P-433.92M      RF Module ASK Transmitter

## **OTHER MODULES OF BANDS RANGE**

N105-A-P-433.92M      RF Module ASK Receiver

## **Manufacturer**

SHENZHEN NANCHENG TECHNOLOGY CO.,LTD

## **Contact with us**

Shenzhen NanCheng Technology CO.,LTD
